

LeaksProtect

Wireless flood detector

The detector is vigilant 24/7. If water touches even one of the four pairs of contacts, LeaksProtect sends hub an alarm. Moreover, when the area dries out, it registers the situation and automatically cancels the alarm.

Maximum Performance

- Communicates at a distance of up to 1,300 m from the hub
- Delivers an alarm signal within 0.15 s
- Operates up to 5 years on the pre-installed batteries

Effortless Operation

- Always on, always ready to detect flooding
- Two-way communication with the hub for testing and configuring

Simple Installation

Use the QR code to connect the device to the hub

Place on the floor in the areas of potential water leakage

Open the app to test connection quality and configure device settings

Bulletproof Protection

Tampering alarm

Data encryption

Device forgery prevention

Tech Specs

- Color: white/black
- Installation: indoors
- Compatibility: all hubs & ReX
- Radio communication range: up to 1,300 m
- Battery: 2x AAA, pre-installed
- Temperature sensor: available
- Protection class: IP65
- Battery life: up to 5 years
- Operating temperature range: from 0°C to +50°C
- Permissible humidity: up to 100%
- Dimensions: 56x56x14 mm
- Weight: 40 g
